HELLO!

We love to make paper design with a good story.

Actually, we have over 300 posters, notebooks, gift wrapping, games and greeting cards in our collection.

Each product has its own story.

In this catalogue you will find selected photos of our paper design, and in the back we present a full overview of our products.

Enjoy!

We make high-quality products.

All illustrations are originally designed by us

We are FSC® certified.

93% of our products are made in Denmark.

Each product has its own little story.

Sauna. Winter Bath.

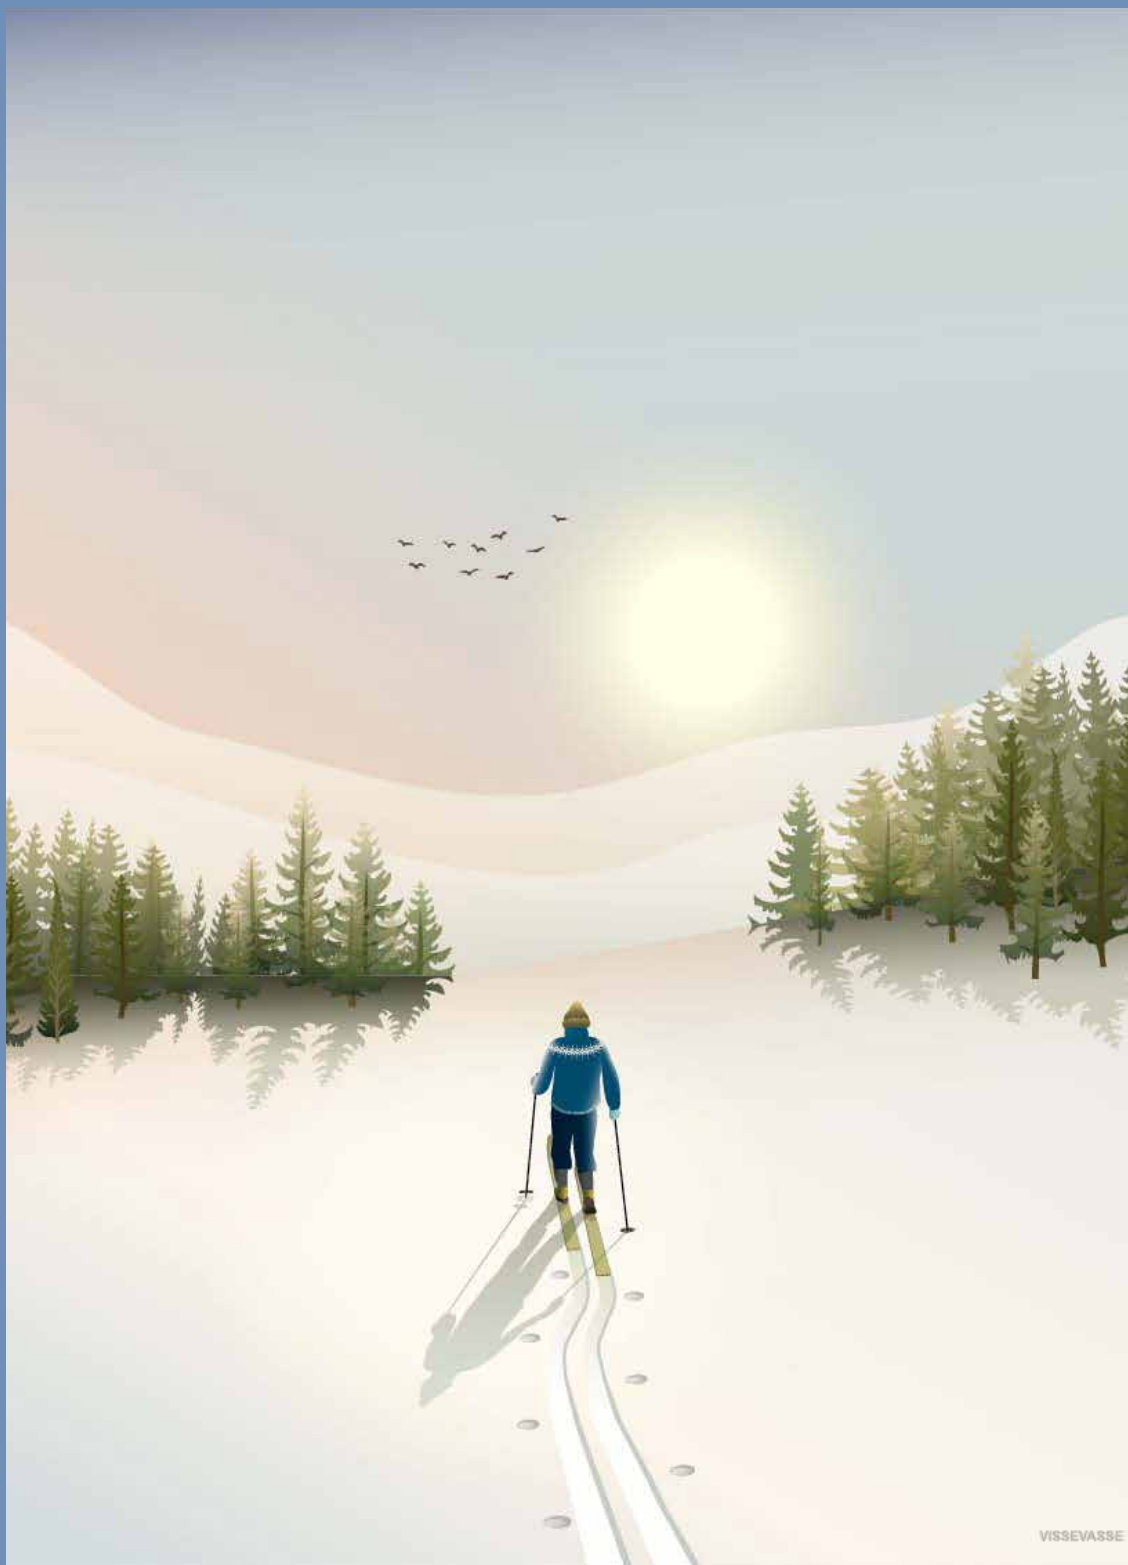

Sauna. The door to the sauna is opened and the heat flows out into the cold, crisp winter air. The body is cold after a dip in the water and as soon as you step into the warm room, you can feel the blood rushing in your veins. The heat makes you relax and let go of worries and everyday hustle and bustle. The sauna is in truth a free space that can only be visited too rarely.

Dunes. The gritty feel of sand between your awakens every corner of your body as you walk in the Danish dunes. The white sand and the blue lyme grass waving in the wind spark your appetite for adventure. The endless sea comes into sight, promising refreshing swims, dazzling sunsets and wind in your hair.

Murmuration. Starlings dance in the twilight, gathering in intricate formations on the sky. In Denmark, the phenomenon is known as 'Black Sun', and it attracts large crowds every year. People gather to see thousands of birds paint the sky black. A breathtaking experience.

VISSEVASSE

Cross-country skiing. Your skis leave tracks in the freshly fallen snow, marking your route in between trees and up and down the little hills. The air is icy cold, but your body feels hot inside your woollen sweater and ski trousers. Cross-country skiing in the sparkling white winter landscape is a stellar experience.

Moonlight with you. Downhill skiing. Cross-country skiing. Off-piste skiing. After the hike.

Downhill Skiing. The lift moves up at a snail's pace, but your smile grows wider as you get closer to the top. Soon, you will be racing downhill, and you can't hardly wait! The adrenalin is pumping through your veins, as you set off down the slope. The wind is whistling in your ears, the sun is warming your cheeks, and your body is abuzz with the thrill.

I love Mother Earth. Namaste. Moonlight with you. Top of the mountain.

Top of the mountain. Your legs muscles are burning after the long hike up the mountain side, but you don't even notice. You are swept away by the sensation of standing on top of the world. The view is spectacular, the sun is warming your cheeks, and a feeling of peace is spreading to every cell in your body.

I LOVE MOTHER
EARTH

VISSEVASSE

I Love Mother Earth. It is our shared task to protect Mother Earth. The chance to experience nature at its finest. The respect for the free pleasures in life is enormous. A walk in the wood or a dip in the sea gives us a boost of energy and joy. Have you noticed how the nature embracing the planet looks like a map of the world?

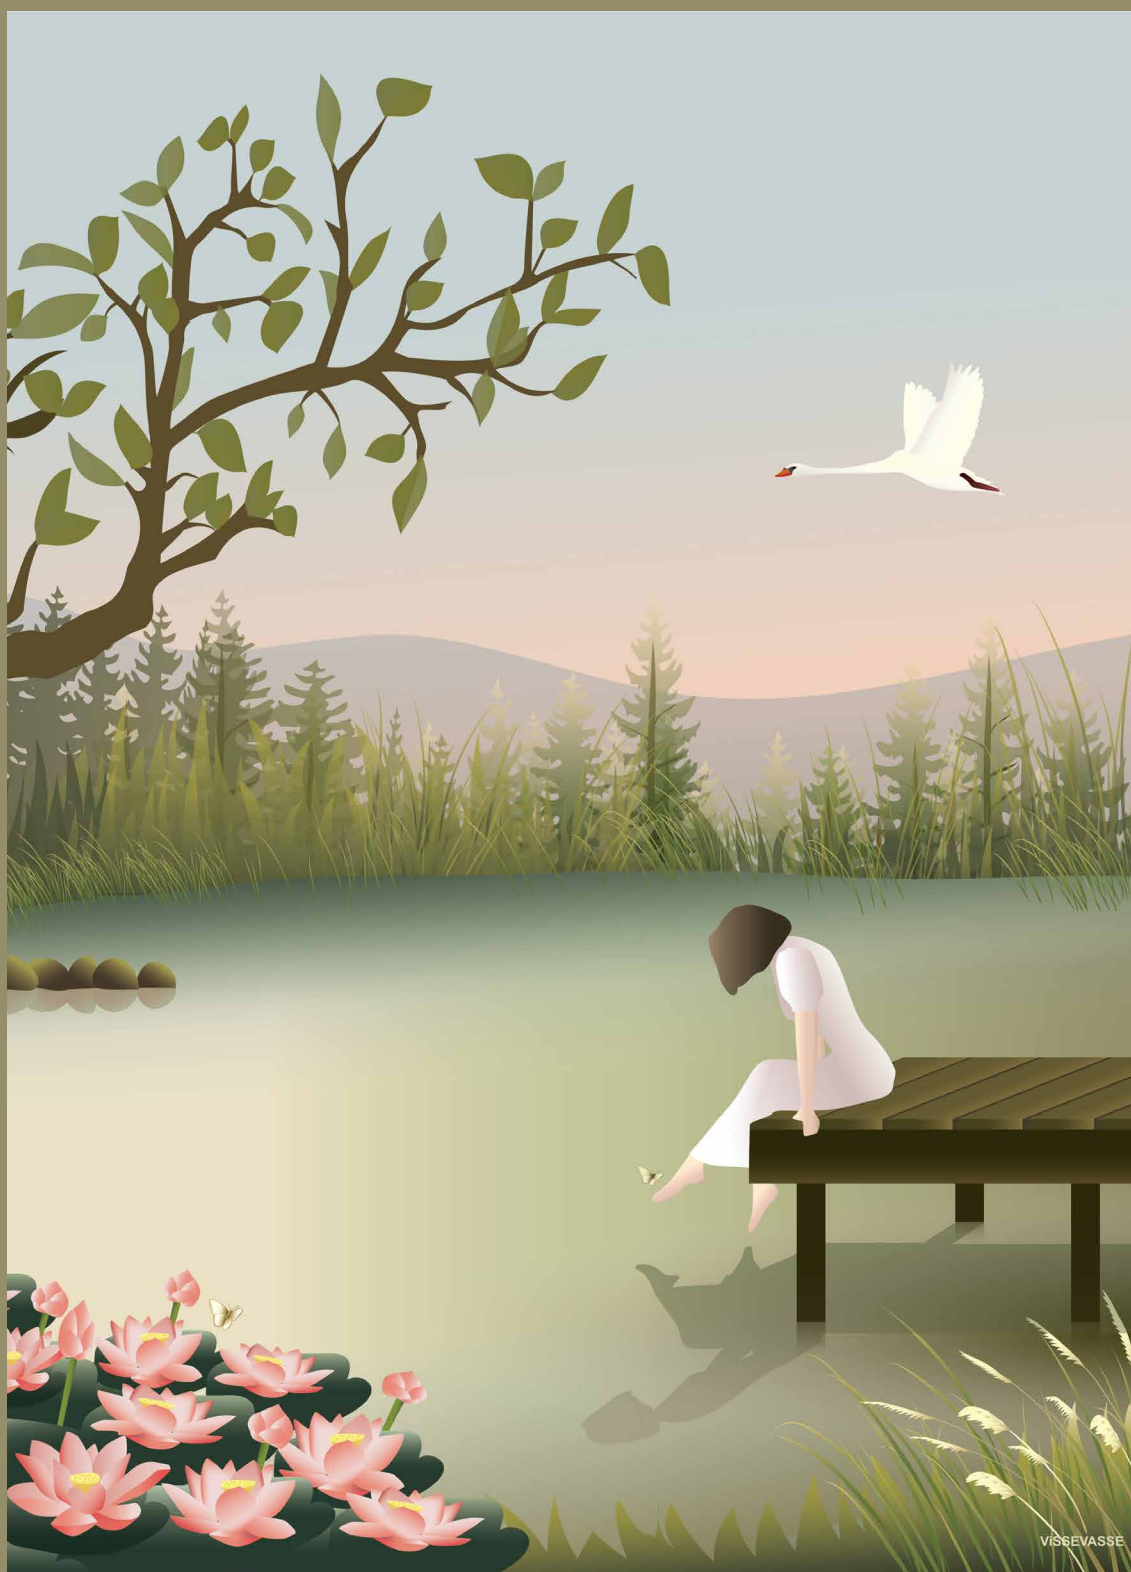

Bathing Bridge. Calm waters on a warm summer's night. That calls for an evening dip! The sea almost looks like gold when the sunbeams are hitting the waves and you glide through the silky soft water that has been warmed up during the day. That is the feeling of pure joy!

VISSEVASSE

Mountains. Take a deep breath: the mountain air is crystal fresh. Your legs may be tired from the hike, but you don't notice. You drink in the view of the green mountain sides, the fjord flowing out to sea in between the mountains and the cotton-grass that looks like summer snow. The view is out of this world, but it is not a dream.

VISSEVASSE

Girl on the bridge. Everything is quiet, but you can sense nature all around you. The sprouting flowers, the fish in the water, the golden rays of the sun. In this moment you are in a perfect symbiosis with nature and you feel complete. Your reflection in the water reveals that you have a smile from ear to ear.

The lanterns. Top of the mountain. Namaste. Girl on the bridge. Orangery.

Namaste. Namaste is a loving and respectful way of saying thank you. You may know the expression from a yoga class, where your instructor rounds off by saying 'Namaste', hands pressed together in front of his or her heart. Say 'Namaste' to express your gratitude and respect for a good experience, alone or with someone you love.

Hike with me. I Love Mother Earth. Canoeing on the lake. After the hike. Top of the mountain

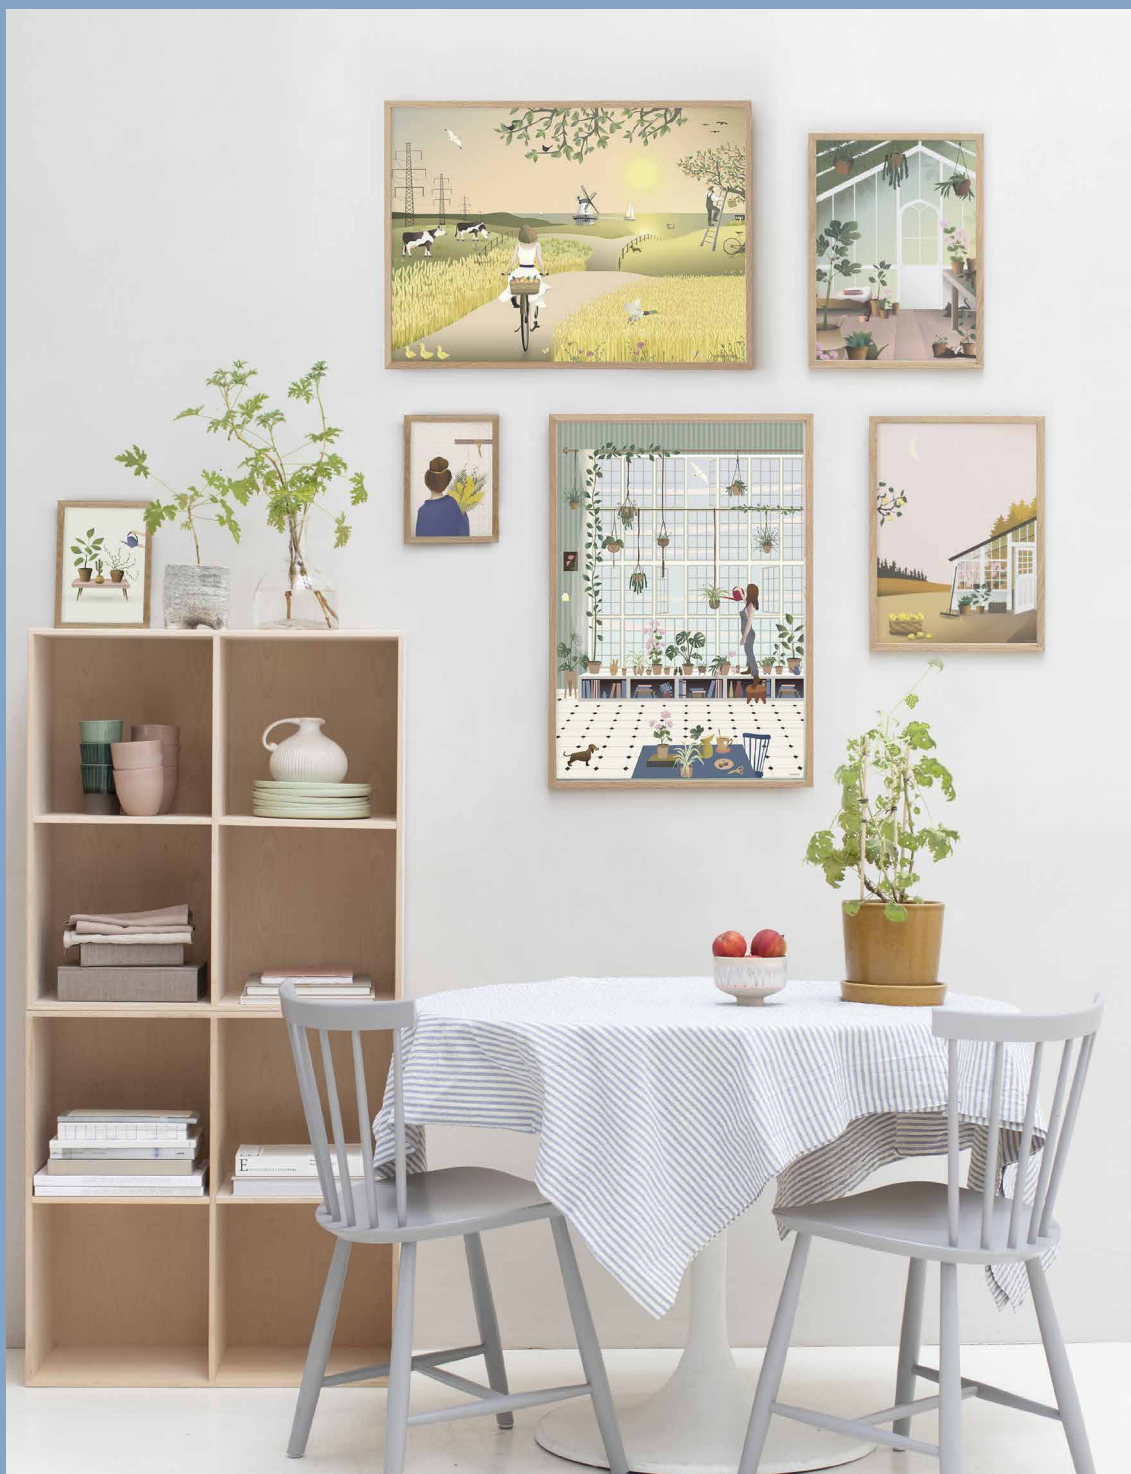

Hike with me. Come along for a hike in the high meadow. The smell of the flowers fills your body with joy. Maybe we should pick a bouquet of wild flowers while we're here? We feel calmer and more grounded, the closer we get to the mountain.

Moonlight with you. The full moon lights up the dark night, and together we see the landscape in a new light. The moon silently pulls on the water, and we feel as if we are being pulled into a different world, where we are in tune with nature's rhythm. In the moonlight we are united with nature for a moment. Want to share another moonlit moment at the next full moon?

Plant lover. Who doesn't dream of big windows with lots of plants? The plants have moved inside and become part of the family. In their own language they call for water, sun and tender care. When you listen and give them love you create life and are rewarded with tiny sprouts, new flower buds and a pleasant indoor climate.

A fine day. Orangery. The girl with the bouquet. Plant lover. Garden life.

A fine day. All the best qualities of a summer day in a single picture. The cyclist's dress flowing in the wind, the insects dancing in the warm air, the cows mooing in the paddock. Nature in full bloom. Spending a day off in these idyllic surroundings must be sheer joy.

Peace on Earth. Canoeing on the lake. Sunny days. VW Camper. Surfer. Lavender field. Campfire.

VW Camper. Packed full of excitement and good vibes, the VW Camper is headed for wide beaches and high waves. The classic box van has long been a surfers' favourite and has become a symbol of freedom, simple living and the feel of the wind in your hair.

Lavender field. The fragrance is unmistakable – you are in a sea of lavender. Butterflies and bees are buzzing all around you in the gorgeous blue field. Lavender fields are a characteristic feature of Provence in France, where you can see the flowers in bloom every summer. Did you know that the sweet-smelling plant has many excellent properties? It is antiseptic, soothing and healing. And it is edible!

Peace on Earth. Woman and sea.

Peace on Earth. John Lennon's lyrics in the song "Imagine" describes so well the hope for peace on earth: "Imagine all the people living life in peace. You may say I'm a dreamer, but I'm not the only one. I hope someday you'll join us, and the world will be as one"

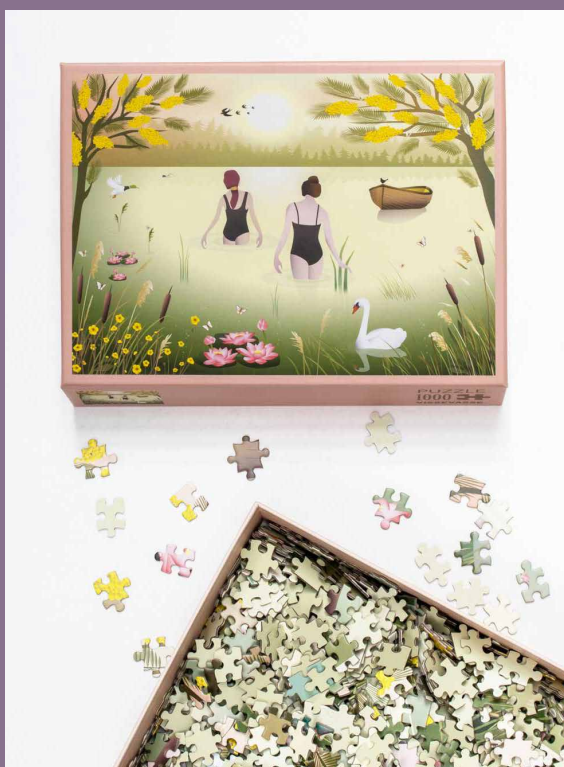

GROW YOUR OWN LUCK

VISUAL STORIES BY VISSEVASSE

Grow your own luck. Plant all your ideas and dreams, big or small, in your inner windowsill. If you make sure they receive light, love and a kind voice, you will find they will flourish and give you exactly what you want.

Balloon dream

World map animal. Big and small, in the water and on land, on their own and in herds. The world is full of wonderful animals. Each of them has its own home, just like you. The seven continents on the map illustrate where some of the animals belong. You probably already know many of them, while some may be new to you. They are all looking forward to you getting to know them better.

Hand-clapping girls, Good luck clover, The swimmer, Swim like a fish

Handclapping girls. Clap, clap, clap ... Following the beat of a homemade tune. The song deals with anything from your friends and cartoon characters to made-up rhymes. Only the two of you know it. The walk home from school drags on because you keep stopping and clapping a song. As you did during the breaks at school or in your garden at home. You can probably recall the song many years later as an adult.

THE COMPANY

We design visual stories

ViSSEVASSE is a Copenhagen-based design and paper studio with a passion for the pure and simple graphic expression. Our style is Nordic and minimalistic, combined with delicate pastels, poetry, nostalgia and food for thought.

Our main mission with our illustrations is to tell a visual story that does not have a beginning or an end. It is up to you to connect the images with feelings, thoughts and recollections.

Dorthe with one of her favorite illustration "Motherhood"

Mood board for the poster Orangery

*"Every single image featured in our products is the result of hours spent on research and at the drawing table. Everything is constructed in layers from the bottom up." **Dorthe Mathiesen, founder & designer***

The brand was created in 2013 by Dorthe Mathiesen and Karsten Noel who have more than 20 years experience as creative professionals. The two are a couple and share a passion for graphic design and aesthetics.

As ViSSEVASSE's designer, Dorthe personally creates the products from start to finish.

This means all our products are originally illustrated and designed by Dorthe, which makes our brand very recognizable and significant.

While Dorthe is entirely focused on the graphic design, Karsten deals with sales and day-to-day operations.

Dorthe Mathiesen & Karsten Noel

"Many of our images focus on the beauty of nature. Our posters seek to provide a refuge from the hectic pace and pressures of daily life. A place that does not necessarily have Wi-Fi access. A space where you can pull the plug and go offline."

Karsten Noel Poulsen, partner

WE LOVE PAPER

Product lines

We are driven by a passion for creating graphic products, all based on paper. Over the years, ViSSEVASSE has developed from a poster design company to one of Denmark's best-known paper brands.

We aim to offer an offline oasis with room for retreat, pause, reflections and drifting off. We believe it helps us bring balance to our life to take time for things that have no practical purpose.

Our jigsaw puzzles and games all spring from this mindset.

Our passion for graphic design has only grown over the years and so has our product range.

THE OFFICE // SHOWROOM

We have an office and showroom on the island of Amager, located in Copenhagen, in a bright Scandinavian space with high ceilings, posters on the walls, lots of flowers and, of course, our wonderful colleagues.

If or when you are in Copenhagen please feel free to make an appointment with us. Write us an email at salg@vissevasse.dk

QUALITY

High-quality products you can use for years

A core aspect of our philosophy is to make high-quality products that you can enjoy for years to come. We aim to challenge the throw-away culture by focusing on quality over quantity.

We use paper with a thin coating helping to bring out the image. The matt surface makes the paper non-reflective and ensures the colours are beautifully reproduced in soft, rich tones. Our posters can be combined with one of our own frames with 2-millimetre non-reflecting acrylic, preventing reflections from lamps and windows.

SUSTAINABILITY

Eco-friendly and locally made

We are honored to be a FSC®-certified company (SCS-COC-005763-BS). The FSC label is your guarantee that you can buy paper products with a clear conscience. The products are made of materials from responsibly managed FSC-certified forests, recycled materials and other controlled sources.

In addition, 93% of our products are made locally in Denmark.

FROM B2B TO B2C

Display solutions for tubes and cards

We want to make it easy for you!

We place high priority on making it easy for our retailers to sell our products. Therefore, we have designed a wide range of visual displays and shop-in-shop solutions that can be modified to fit the needs of the individual shop. We are happy to help you set up the display and put together your product selection.

Whether you run a webshop or a physical shop, you will find it is quick and easy to order products from VISSEVASSE with a login to our B2B webshop.

In the shop you get access to product pictures, product data and order history - made simple for you!

We send orders as quickly as possible, and we aim to find optimal solutions for all types of retailers.
