D.I.Y. MOBILES FOR THE KIDS ROOM

EVERYTHING YOU NEED TO ASSEMBLE THE MOBILE
IS IN THE PACKAGE:

6 COMPONENTS

250 CM THREAD

INSTRUCTIONS FOR SELF-ASSEMBLY

DO IT YOURSELF DECORATIVE MOBILE

3 EASY STEPS:

- Pop out
- Attach tread
- Ready to hang

Airplanes - Decorative DIY mobile. When you are lying on the ground and looking up at the sky it is easy to fly away on a dream. Imagine travelling into space, where all the clouds, stars and rainbows live. Isn't it dizzying to imagine that you would then be looking down on earth? Do you think you would be able to see your home from somewhere over the rainbow?

The mobiles are flatpacked and you can easily assemble the mobile by "popping" out the elements of the mobile following the instructions on the back of the package. Thread is included.

Balloon Dream - Decorative DIY mobile. When the hour turns blue, and the eyelids grow heavy, it's time to go. Off to that magical land that is only accessible by hot air balloon. Where we meet princes and princesses, dragons and fabulous beasts, while we digest the events of the day. When we open our eyes again, the hot air balloon just a shadow, and we are no longer sure: Was it a dream or a separate reality?

The mobiles are perfect to hang over the changing table or the bed, but they can also be a decorative item in the corner of the room or hanging from a hook below a shelf.

Flying elephant - Decorative DIY mobile. Rub the sleep from your eyes and pinch yourself; you have arrived in a new world. A world where anything is possible: bees can swim, dolphins can walk, and elephants can fly. Your imagination is the only limit.

WE HAVE DESIGNED 3
DECORATIVE DIY MOBILES FOR
THE KIDS ROOM.

THE MOBILES ARE EASY AND
FUN TO POP OUT AND MAKE.

THE MEASURE IS APPROX.
37 X 30 CM WHEN
ASSEMBLED.

overview

ANIMALS ARE JUST THE CUTEST! YOU CAN PET THEM, TAKE CARE OF THEM AND TALK TO THEM. EVEN IF YOU DON'T SPEAK THE SAME LANGUAGE. THE DREAM IS TO BE SURROUNDED BY CUTE AND INTERESTING ANIMALS ROUND THE CLOCK. TOGETHER, YOU MAKE THE MOST BEAUTIFUL FLOCK.

The Zookeeper. Animals are just the cutest! You can pet them, take care of them and talk to them – even if you don't speak the same language. The dream is to be surrounded by cute and interesting animals round the clock. Together, you make the most beautiful flock.

Noah's ark. All animals, both large and small, must go on Noah's ark. 2 ladybugs, 2 elephants, 2 flamingos. Together you will go on a great adventure and live on the boat until you find land. On the ark, you are all good friends and do fun things together. Maybe you can play a game or play catch?

Alphabet blue English. Noah's ark. Love in a bubble. World map animal

World map animal. Big and small, in the water and on land, on their own and in herds. The world is full of wonderful animals. Each of them has its own home, just like you. The seven continents on the map illustrate where some of the animals belong. You probably already know many of them, while some may be new to you. They are all looking forward to you getting to know them better.

Alphabet blue English.

Alphabet blue English. Welcome to a whole new world of letters. It may be difficult to remember them all, but you will get to know them very well. They all have their very own sound and, like you, they are all unique. Once you know them, you can learn to write and read. Can you find the letters in your own name?

With this alphabet poster you can make learning the alphabet fun. Next to each letter is a symbol with the letter as initial.

VISREVALE

Canoe. Off to new adventures. Friends heading into the great outdoors together, canoe on their shoulders. One, two, one, two, forward. Today, there is no school, no chores. Mum prepared a nice big packed lunch, so you're ready for a whole day of fun on the water.

Flying elephant. Rub the sleep from your eyes and pinch yourself; you have arrived in a new world. A world where anything is possible: bees can swim, dolphins can walk, and elephants can fly. Your imagination is the only limit.

VIS

VISSEVASSE

When I grow up. A baker, a zookeeper or a diver. You can be anything you want to be! Maybe you dream of being the strongest person in the world, the sweetest ice cream maker or the most dazzling magician. Maybe you dream of being all of these things at once. Only your imagination sets the limits for what you can be when you grow up.

VISSEVASSE

Sunset with you. The day is waning. Sunset paints the sky pink, yellow, orange and red. Even the greatest cartoon on Netflix can't compete with simply sitting here quietly with you. My best friend. We will always stick together.

Fly away with me, Swim like a fish

Fly away with me. The day is drawing to a close. Your eyelids feel heavy, and you finally give in and nod off. Behind your closed eyelids you discover a whole new world. Jump into the hot-air balloon and join me on a trip to the land where anything is possible: elephants fly, teddy bears talk, and you can eat as many sweets as you like. Want to come along to dream-land?

The Diver. Underwater you are in a different world. A silent and colourful universe where you are weightless as you glide along with flippers on your feet. You see thousands of animals and plants. What can you find at the bottom of the sea? You never know whether you might discover a lost treasure or maybe the wreck of an old ship.

Swim like a fish. Splash! Diving headlong into the water. Going from dry to wet, from warm to cold, in an instant. The sensation of cooling down and being weightless in the water puts a smile on your face. A school of little pink and yellow fish swim by. The colours are breathtaking, and you have the urge to follow along to see where they go.

VISSEVASSE

Boy in a boat. A quiet evening at dusk. The water is smooth as a mirror, and the rays of the sun dance on the water's surface, bringing out dazzling colours. A magical encounter with the fish that rush over to examine your fingertips trailing in the water. A quiet moment all alone, as the gentle rocking of the boat lulls you into a relaxed state on the water.

Love in a bubble. You're the person I love to waste time with, to have new exciting experiences with, to jump up and down in bed with, to cry with and to laugh with. You're the person I ring when I receive good news and the person I think of when I need someone to cheer me up. Thank you for being who you are.

Hand-clapping girls, Good luck clover, The swimmer, Swim like a fish

Good luck clover. Searching for four-leaf clovers is nature's very own treasure hunt. It is said that the chances of finding a four-leaf clover is 1 in 10,000. The four leaves represent faith, hope, charity – and luck. May this four-leaf clover bring you lots of luck in the future.

Hand-clapping girls. Clap, clap, clap ... Following the beat of a homemade tune. The song deals with anything from your friends and cartoon characters to made-up rhymes. Only the two of you know it. The walk home from school drags on because you keep stopping and clapping a song. As you did during the breaks at school or in your garden at home. You can probably recall the song many years later as an adult

Balloon dream. When the hour turns blue, and the eyelids grow heavy, it's time to go. Off to that magical land that is only accessible by hot air balloon. Where we meet princes and princesses, dragons and fabulous beasts, while we digest the events of the day. When we open our eyes again, the hot air balloon just a shadow, and we are no longer sure: Was it a dream or a separate reality?

The princess and the pes, Ice cream lady, The diver, Ballon dream

Ice cream lady. Strawberry ice cream, chocolate ice cream, vanilla ice cream and pistachio ice cream. Ah, so many great flavours to choose from. If only you could choose them all!

VISSEVASSE

Three house. Any boy's dream. A secret place deep in the woods, where no one else can find it. High up under the tree crowns you can hide things that only you and your best friends know about. This is your own place where you decide how high to swing – and for how long.

DREAMING....

COME ALONG, AND LET YOUR DREAMS
TAKE YOU TO A MAGICAL PLACE
WHERE ANYTHING IS POSSIBLE.

ONLY YOUR IMAGINATION SETS
THE LIMITS FOR WHAT IS POSSIBLE
ON THE DREAM BALLOON.

Bike with flag. The iconic bicycle with the wide rear tyre and the raised handlebars. Here you can lean back as you go on another two-wheeled adventure. In fact, the seat has more than enough room for two. To a young lad, this is the ultimate buddy on two wheels. Retro with a sporty look. It looks almost like a motorcycle. And if you pedal hard enough it feels as if it goes just as fast.

The Steadfast tinsoldier. Hans Christian Andersen's wonderful imagination created iconic stories that are known all over the world. A one-legged tin soldier is unable to take his eyes off the beautiful paper ballerina – as she dances, one leg is lifted so high behind her that she seems to have only one leg, just like the tin soldier.

The princess and the pea. Hans Christian Andersen's wonderful imagination created iconic stories that are known all over the world. 'The Princess and the Pea' from 1835 is one of his best-known fairy tales. In the story, a prince is searching for a real princess to marry. Who would have thought that one little pea covered by 20 mattresses and 20 eiderdown feather beds could reveal that the princess is indeed a real princess? Only a real princess could be so delicate.

THE COMPANY

We design visual stories

ViSSEVASSE is a Copenhagen-based design and paper studio with a passion for the pure and simple graphic expression. Our style is Nordic and minimalistic, combined with delicate pastels, poetry, nostalgia and food for thought.

Our main mission with our illustrations is to tell a visual story that does not have a beginning or an end. It is up to you to connect the images with feelings, thoughts and recollections.

Dorthe with one of her favorite illustration "Motherhood"

Mood board for the poster Orangery

*"Every single image featured in our products is the result of hours spent on research and at the drawing table. Everything is constructed in layers from the bottom up." **Dorthe Mathiesen, founder & designer***

The brand was created in 2013 by Dorthe Mathiesen and Karsten Noel who have more than 20 years experience as creative professionals. The two are a couple and share a passion for graphic design and aesthetics.

As ViSSEVASSE's designer, Dorthe personally creates the products from start to finish.

This means all our products are originally illustrated and designed by Dorthe, which makes our brand very recognizable and significant.

While Dorthe is entirely focused on the graphic design, Karsten deals with sales and day-to-day operations.

Dorthe Mathiesen & Karsten Noel

"Many of our images focus on the beauty of nature. Our posters seek to provide a refuge from the hectic pace and pressures of daily life. A place that does not necessarily have Wi-Fi access. A space where you can pull the plug and go offline."

Karsten Noel Poulsen, partner

WE LOVE PAPER

Product lines

We are driven by a passion for creating graphic products, all based on paper. Over the years, ViSSEVASSE has developed from a poster design company to one of Denmark's best-known paper brands.

We aim to offer an offline oasis with room for retreat, pause, reflections and drifting off. We believe it helps us bring balance to our life to take time for things that have no practical purpose.

Our jigsaw puzzles and games all spring from this mindset.

Our passion for graphic design has only grown over the years and so has our product range.

THE OFFICE // SHOWROOM

We have an office and showroom on the island of Amager, located in Copenhagen, in a bright Scandinavian space with high ceilings, posters on the walls, lots of flowers and, of course, our wonderful colleagues.

If or when you are in Copenhagen please feel free to make an appointment with us. Write us an email at salg@vissevasse.dk

Our showroom in Copenhagen

QUALITY

High-quality products you can use for years

A core aspect of our philosophy is to make high-quality products that you can enjoy for years to come. We aim to challenge the throw-away culture by focusing on quality over quantity.

We use paper with a thin coating helping to bring out the image. The matt surface makes the paper non-reflective and ensures the colours are beautifully reproduced in soft, rich tones. Our posters can be combined with one of our own frames with 2-millimetre non-reflecting acrylic, preventing reflections from lamps and windows.

SUSTAINABILITY

Eco-friendly and locally made

We are honored to be a FSC®-certified company (SCS-COC-005763-BS). The FSC label is your guarantee that you can buy paper products with a clear conscience. The products are made of materials from responsibly managed FSC-certified forests, recycled materials and other controlled sources.

In addition, 93% of our products are made locally in Denmark.
