REVITALIZE YOUR HOME TRENDS 2022

If there is something we have learnt from the pandemic is that home is a place to pay attention to. Our focus on our homes will continue to play a major role in our lives in 2022. To stay positive and flexible to respond to constant change, we will increasingly feel the need to improve our health and energy levels. We will not only see increased purchases of healthy foods or wellness products but we will see also a change in how we can create a positive and energetic atmosphere at home.

THERAPY TO REVITALIZE YOUR HOME

Bring more positivity and energy to your home with these 3 trends:

- ☐ Light up with colours
- ☐ Healthy kitchen decorate green
- ☐ Fresh air indoor = outdoor

TRENDS 2022

LIGHT UP WITH COLOURS

ENERGIZE YOUR HOME WITH YOUR PERSONAL SET OF INSPIRING COLOURS.

To create a different mood at home, a bright colour palette might give you the energy and motivation you need. Step away from the greys, browns and whites and you will immediately feel lightened up.

You do not instantly need to paint all the walls in your favourite colour. Simply spice up your living room with coloured candles or cushions in **your favourite colour palette**. Or buy a large bouquet of bright coloured flowers to bring positivity to your home. Light up with colours!

- ☐ Bright colours for energy and positivity
- ☐ Colour affects our mood & behaviour
- ☐ Lavender, Sky, Blossom, Yellow, Green
- ☐ Palette for inspiration, energy and creativity
- ☐ Add colour with cushions, candles, flowers
- ☐ Subtrend: Repurposing

HEALTHY KITCHEN DECORATE GREEN

A HEALTHY MIND IN A HEALTHY BODY!

The healthy kitchen trend starts right at home in our kitchen. To improve our physical well being we will focus more and more on preparing healthy meals at home.

Well-being is no longer about simply wanting to look after oneself. Instead, a holistic approach is becoming a key motivator.

To get inspired we increasingly start decorating green.

However, when we think of decorating green we often think of plants. But how about herbs, fruits and veggies? We seldomly see them as part of our interior decoration but we definitely should! They create a great atmosphere, the smell stimulates brain activity and influences us subconsciously to choose a more conscious lifestyle. A healthier lifestyle will give more energy, positivity and improve our sense of wellbeing.

So let's inspire ourselves at home with healthy & green decoration.

- ☐ The kitchen as a healthy haven
- ☐ Decorate with veggies and fruits for inspiration
- ☐ Plant-based meals for our and the planet's health
- ☐ Earthy tones browns, green, terra
- ☐ Organic shaped kitchenware, baskets from plant fiber
- ☐ Subtrend: Reduce waste and regrow

FRESH AIR

INDOOR = OUTDOOR

WE ARE BECOMING MORE AND MORE AWARE OF THE IMPORTANCE OF FRESH AIR.

Fresh air means a fresh mind. Since we are spending more time at home we are becoming more aware of the importance of fresh, clean air for our overall health and wellbeing.

Fresh air is not only about opening our windows more often. It is about taking the outside in and the inside out. The lines between the indoors and outdoors are blurring to

create more connection to the natural world and to create a sense of space.

Creating garden rooms, growing vegetables in our kitchen and decorating our living rooms with plants and even trees. It urges us to use more natural materials indoors and rethink the function and usage of our indoor furnishings for the outside.

- ☐ Fresh breeze through our homes
- ☐ Bring the indoors out and the outdoors in
- ☐ Rethink function and materials
- ☐ Out = in: plants, items made from plant fiber
- ☐ In= out: throws, cushions, side tables, from natural materials
- ☐ Subtrend: Paradoxal graphic design
