# Moments to share

*Now we welcome life on the bright side again!*

During spring and summer 2024 we continue to celebrate all kinds of moments which give us the opportunity to share and create experiences together. And speaking of time. What does it mean to you? Whether you think it goes fast or slow you can still fill it with anticipation and memorable moments here and now. Because the present is the most valuable and actually the only time we have. The future and memories are created here – it's here we live. And it's precisely in the present we want you to feel your best, it doesn't matter if you are at work, in the woods, dipping your toes in the sea or having a cosy night at home with only yourself as company.

In our latest assortment you will find carefully chosen new arrivals and even more timeless Swedish Originals and classics that will last over generations. The table settings can be striped, floral or in mixed patterns. The materials are sustainable like stoneware, glass and marble. To mention just a few. As usual the colours are beautifully inspired by nature with a warm energy-filled yellow that ties up the season. The design is stylish and Scandinavian with a modern touch which makes it great to use on both big and small occasions and to give away as a personal gift to family and friends. We highlight Easter a little extra, just like the party. But it is of course always "right now" we have in focus. So, wherever you are, whatever you're doing - enjoy the moment!

*Welcome to the best new start of the year together with us at Sagaform!*

# Give away a Swedish Original

At Sagaform we care about relationships. That is why we always regard our design as a great gift to someone we love but also for ourselves. The gift should be easy to give away with the purpose to raise many smiles on the receivers' faces.

Classic Scandinavian design in combination with carefully chosen details radiating stylish simplicity characterizes what we call Swedish Originals. Functional quality products caring about the familiar and which are created to be used and appreciated in many homes by many families for a long time to come. All of them packaged in a way which is appreciated and received just as they are.

## Studio Sagaform

In our studio ideas are brought to life and dreams are shaped. Here we sketch on possibilities, design future originals and bring forth products which always find their way home. We are really proud of our inhouse studio where we combine experience with engagement and loyalty to Swedish design.

## Designers

We also work with Sweden's leading designers, with whom we create familiar, well-made products and gifts with Scandinavian design, always ready to be given away. Together with names like Margot Barolo, Anton Björnsing and Pascal Charmolu along with many others we are proud of our heritage. Always with a focus on Swedish Originals.

# Sustainability for the future

It should be easy to make good choices, which is a key part of the development of our sustainability work. At Sagaform AB, we put great emphasis on sustainability in our processes and take responsibility for how our operations affect people and the environment. Of course, we hope that you are satisfied with your purchased products but also with us as a company.

As part of the New Wave Group, we pursue active sustainability work towards a vision of sustainable growth where business solutions are not only financially favorable but also sustainable from a social and environmental perspective. What makes the biggest difference is how we conduct our everyday business. That is why we are working to integrate sustainability issues into our core business. The work includes, for example, improved working conditions in production countries, progressive chemical work, and streamlining transport and logistics.

Our common main goal with the sustainability work is to create products with the longest life possible, to minimize the product's negative impact on people and the environment during its life cycle. In our work, we take into account all three dimensions of sustainability - social, environmental, and economic.

One of our strengths is that we have our own CSR staff in place in the production countries who work full time on these issues. The work includes, for example, improved working conditions, progressive chemical work, and streamlining transport and logistics. Through internal controls in combination with independent reviews, we make sure that our products are produced under good social conditions and do not contain any harmful chemicals. Do you want to know more? Please browse our Sustainability folder which you will find on our website under Sustainability. There is an interesting read about all our CSR work through the New Wave Group.

You can also read more about how we work with CSR and sustainability on the parent company's website [www.nwg.se](http://www.nwg.se). There we have gathered all information about important activities, collaborations, and goals for the future.

To us decoration should be classic, have a great function and always be appreciated to receive or give away. Here you will find products which both take up space and harmonize with the Scandinavian design.

Anton Björsing has his background from the distinguished Carl Malmsten School in Stockholm where he studied furniture design focusing on wood. Before that he explored design and wooden handicraft at the Steneby School. The austere Scandinavian design language runs like a thread through Anton Björsing's work. He works mostly with oak in combination with stoneware and glass, which gives the products a further dimension of exciting material contrasts.

# Sten wine cooler

Stylish and close to nature, toned down and soberly luxurious! Sten wine cooler has a straight shape with a rounded base. The material travertine-marble is heavy and genuine. The tones are natural beige in a traditional marble pattern. Together it becomes a wine cooler with a strong and natural look. Put ice in the bottom or freeze it for a couple of hours to keep the wine cold. Sten wine cooler is designed to stay timeless, neither shape nor material goes out of style. A tip is to use it as a vase when you don't use it for cooling beverages or for serving. Designed by Studio Sagaform. Travertine marble. Packed in a beautiful Sagaform box. Do not machine wash.

# Coffee & More

Coffee & More is produced by Sagaform in collaboration with designer Margot Barolo. The series design flirts with the direct, playful and straight language of the 70's. The series is available in various parts, patterns and colours and is at its best when everything is mixed. But it should not be underestimated when used individually. This series has several personalities which we love and appreciate. Which one is your favourite? Made of stoneware, dishwasher safe.

# Margot Barolo

Designer Margot Barolo was educated at Beckmans and also has a master's degree in ceramics from Konstfack. She has for a long time successfully worked with the Swedish art industry and during recent years also started challenging the picture of the production around this. Margot Barolo's unique design language and her love of ceramics shows in Coffee & More, the dinner service designed for Sagaform. Included in the series are stackable bowls, coffee cups, latte mugs and plates with inspiration from the 70's and its passion for ceramics with straight lines broken off by a multitude of patterns and playfulness. Her design language is tied together in peaceful nuances, high-gloss glazing and ornamented throughout in relief.

# Outdoor living

Nature is important to us and also how we live in it. In this category you will find everything you need to really enjoy the Scandinavian nature, whether it's in the forest, on the terrace, on the road or at sea. Functional, durable and familiar are the keywords when we have developed this category and its products.

# Doris enamel

The favourite Doris unites utility with pleasure, or rather design with function. Here it is the material which provides character. Enamel is durable, doesn't weigh much and with its capacity to withstand heat up to 225 degrees from an open fire, induction or in an oven, it becomes as functional outdoors as stylish looking indoors. The design is timeless with a discreet splash pattern. A classic, multi-functional and durable series containing mug, bowl, plate and pan in two sizes. Doris is available in black, green and beige. Withstands machine washing in upper basket on low temperature. Made in Enamelled carbon steel and designed by Studio Sagaform. Don't use sharp items in the pan.
