CONCEPT

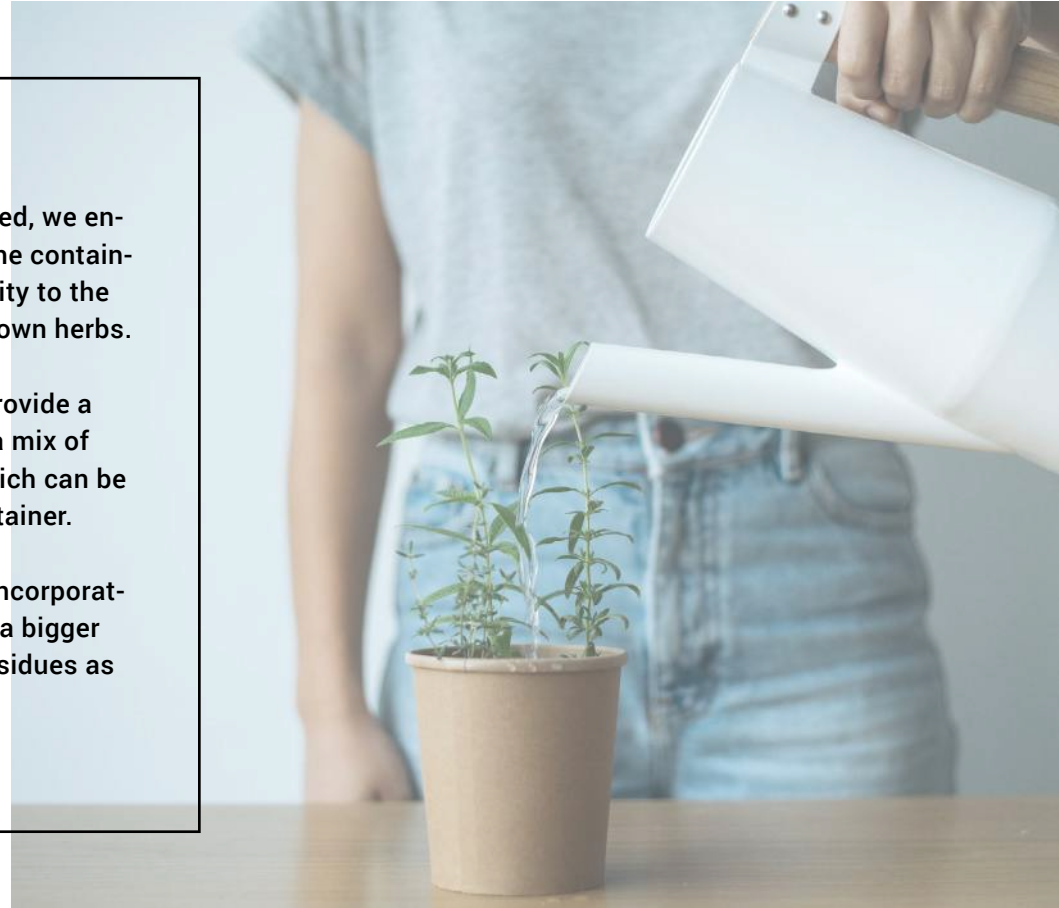

drink it _ plant it

When content is finished, we encourage the reuse of the container, giving the opportunity to the consumer to grow his own herbs.

In each package, we provide a seed stick glued with a mix of organic herb seeds which can be planted inside the container.

The container can be incorporated into the soil or into a bigger planter leaving zero residues as it is biodegradable.

CATERING

more needs _ more options

We love to supply catering businesses with good quality herbal tea and share our knowledge through training.

Towards that road, we have designed small and large catering packages and provide supporting services on how to get the most of our loose leaf herbal teas.

AVAILABLE SIZES
