BYON

The sky is not the limit

Momentous Tangibles SS 2023

Byon is the brand which never stops discovering new playful colour combinations, patterns, shapes and textures. The design is functional in an ingenious way where curiosity always brings out the personal element in every tangible created.

Byon loves to surprise and does so in a humble way and with a big heart. Because it feels very special to be part of someone's home, to open up for new ideas and to give innovation its own brand name. This is Byon's world. Welcome to us!

- Its just the beginning

The spring collection has no limits

You're invited!

It never rains in Byon's world! Here it's pouring down colourful expectations and convincing surprises which give the everyday a little more va-va-voom, power and great laughs. And just so relaxed and crazy it continues when we now step into a flowering spring and summer although the world around us still has an aura of uncertainty. With a big heart we still stand up for differences and let playfulness be on top of everything we do. Mira, our constant follower and implementer of **#bubblesforeveryday** invites us to a party with the theme The sky is not the limit – it's just the beginning! You are all most welcome, of course!

The spring collection has no limits and just like the sky it's beautifully blue. This colour which symbolizes water and not least strength is one of the strongest and most dominant colours of the season. Together with tones of green and yellow in contrast to the lively red, we like to mix them all. This year's white colour is more often than not shiny and is seen as more of an accent colour than a basic one. The materials are mixed. Porcelain, dolomite and glass are combined with textiles made of organic cotton. We set the table by the pool or by the sea and in a medley of colours. Fruits are crowded by vegetables and shells. All iconic to Byon. The poppy collection makes the playful aspect sing and soften up and makes us think of a messy summer meadow. The shapes are odd, playful, soft and twisted. As always, you and your imagination create magic, making Byon and everything possible.

Welcome to us and SS2023!

The world of Byon

Life is here and now. In the seemingly insignificant moments, in the energy-filled highlights and in everything in between. And it was right here, in this everyday universe, that Byon was created. In the longing for more colour, humour and playfulness in interior decorating we began to create design which makes us feel good and which opens up for fantasy to bloom while remaining functional. Here, in Byon's world, we create room for creativity and personality. Here you and we can be all ourselves.

Byon's world should with playfulness, joy, colour and shape create endless possibilities for homes around the world.

Every season Byon introduces a new surprising, personal and creative collection with the working title *Momentous Tangibles*. It's a collection of characteristic products making the everyday blossom and which conveys the feeling we call *#bubblesforeveryday*.

Messy is a wonderfully creative chaos.

Series Messy is a wonderfully creative chaos. Tiny tasty sweets in poppy colours which take playfulness to new heights. The series is a colour explosion of confetti and brings to mind cheerful shelves of candy where one thing after another tries to catch our attention. Everything is appealing and seductive - just like the series Messy.

The series is made of thick handblown glass. We're having drinks and serving juice or milk. We use it for toothbrushes, pens or tealights. As always at Byon, it's you who choose the range of application and only your imagination can put a stop.

Series Cara consists of tiny colourful glass sweets – pretty and tempting. The colour range goes from a pop coloured confetti mix of red and orange to neutral tones of black and beige. Serve popcorn, use for flake salt or light a candle. The areas of use are infinite, and nothing is right or wrong. The series is handmade and handblown which makes each product unique.

Born a duck, live like a swan

As the name reveals it is the sea and the beautiful swan which have inspired us. The swan represents beauty and elegance, but the bird also stands for duality, for living together. Just the way we would like the series Swan to live with you in your home. They are all handmade and unique in their own way. The glass is clear with a beautiful texture which mirrors the light in a lovely way.

The Sea collection

With roots on the west coast shells always have a natural place at Byon. Shapes which nature itself has created. In the Sea Collection the shape of the shells has met the imagination and become something we hardly thought existed. The porcelain is glazed or mat for the natural to meet the luxurious. Here you can find plate shell in different sizes, Bowl Awa small and big, Bowl shell and Shelley among other items straight from the sea. As always at Byon there are no rules about how things should be used. What's important is what you want!

Frances

Inspired by beautiful shapes and patterns of the shells this thin and sheer porcelain series takes its neutral but given place on the dining table. The combination-friendly colours white and light beige become anything but discreet when they are matched with other colours. The series includes a plate, small plates and varying sizes of bowls on tiny feet.

Swirl

Uneven, round, twisted, organic, oversized and with crooked messy stripes. Last season Mug Swirl made an entrance. Now it is accompanied by a small bowl and a cup. Swirl is the result when ceramics becomes handcraft in a modern way. The matt black-glazed surface meets the uncoloured raw one, and the contrast feels genuine. Swirl is chunky without being heavy. The perfect breakfast set if you ask us.

Blackroot

Blackroot lives up to its name. An exciting raw porcelain series with a dark radiance. And it's precisely the characteristic serious features and the matt colour which make the series unique and lovable. A dinner plate, serving spoon, small plates, bowls and a jug quickly become favourites for all kinds of table settings. Great to combine with the Asparagus series.

Opacity

Opacity is the glass series which is beauty itself, luxuriously simple with a feeling of bold elegance. When you set the table with Opacity something happens. You cannot get enough of this gorgeous series in thin sheer glass with discreet texture. Therefore it holds everything from drinking glass to champagne coupe. And a lovely jug as well, of course. The glasses are stackable.

May all your troubles be bubbles!

The glass series Bubbles is the detail which creates the entirety in a table setting, during the party, the breakfast. With these beautiful glasses no imagination is needed. They speak for themselves regardless if you are serving juice, wine, water or champagne. Or dessert for that matter. The glasses make us bubble – with joy, talk, happiness ...

Bubbles for every day – Our inspiration and guide in life!

#bubblesforeveryday is the life philosophy which rules everything in Byon's world, like fundamental laws but actually vice versa. A lot in life is arranged and boring. Life should be lived quite differently, joyfully, mischievously and full of surprises. That's when everyday magic and happiness is created, we believe. We have chosen to call it "Bubbles for every day",

the moments created in between all have-to-do things, which give the everyday a silver lining. There are no specific rules for this, everything which makes you smile an extra time is perfectly right. Honestly, in plain language, it's no more difficult than that. Dare to step outside the box, challenge the child inside and never grow up!

For us
decorations are so
much more
than just
beautification.

They can be filled with heart, humour, reason and at times even be
unstoppable home enrichers. Through a mosaic of shapes, expressions
and purposes, we would like to give you a glimpse of how you can
gradually build up a truly extraordinary feeling of well-being. A home
flourishing with style, prosperity and personality.

Decoration

My name is Luca

Once again, the sea has inspired us. This because under the sea surface patterns and shapes are created which feel close and yet far away. Luca candle holder has an organic, imaginative pattern picked up from the sea floor. In power blue colour this is one of the season's statement products – a candle holder which all homes need.

Vase Elektra

Vase Elektra is full of contrasts. At first glance it reminds us of a beautiful flower in a shimmering pencil-grey nuance. But at a closer look it has a vague metallic effect making us think of disco balls and late nights. Filled with a colourful bouquet of flowers an almost dramatic effect is created. Handmade in handblown glass.

Vase Tiggy

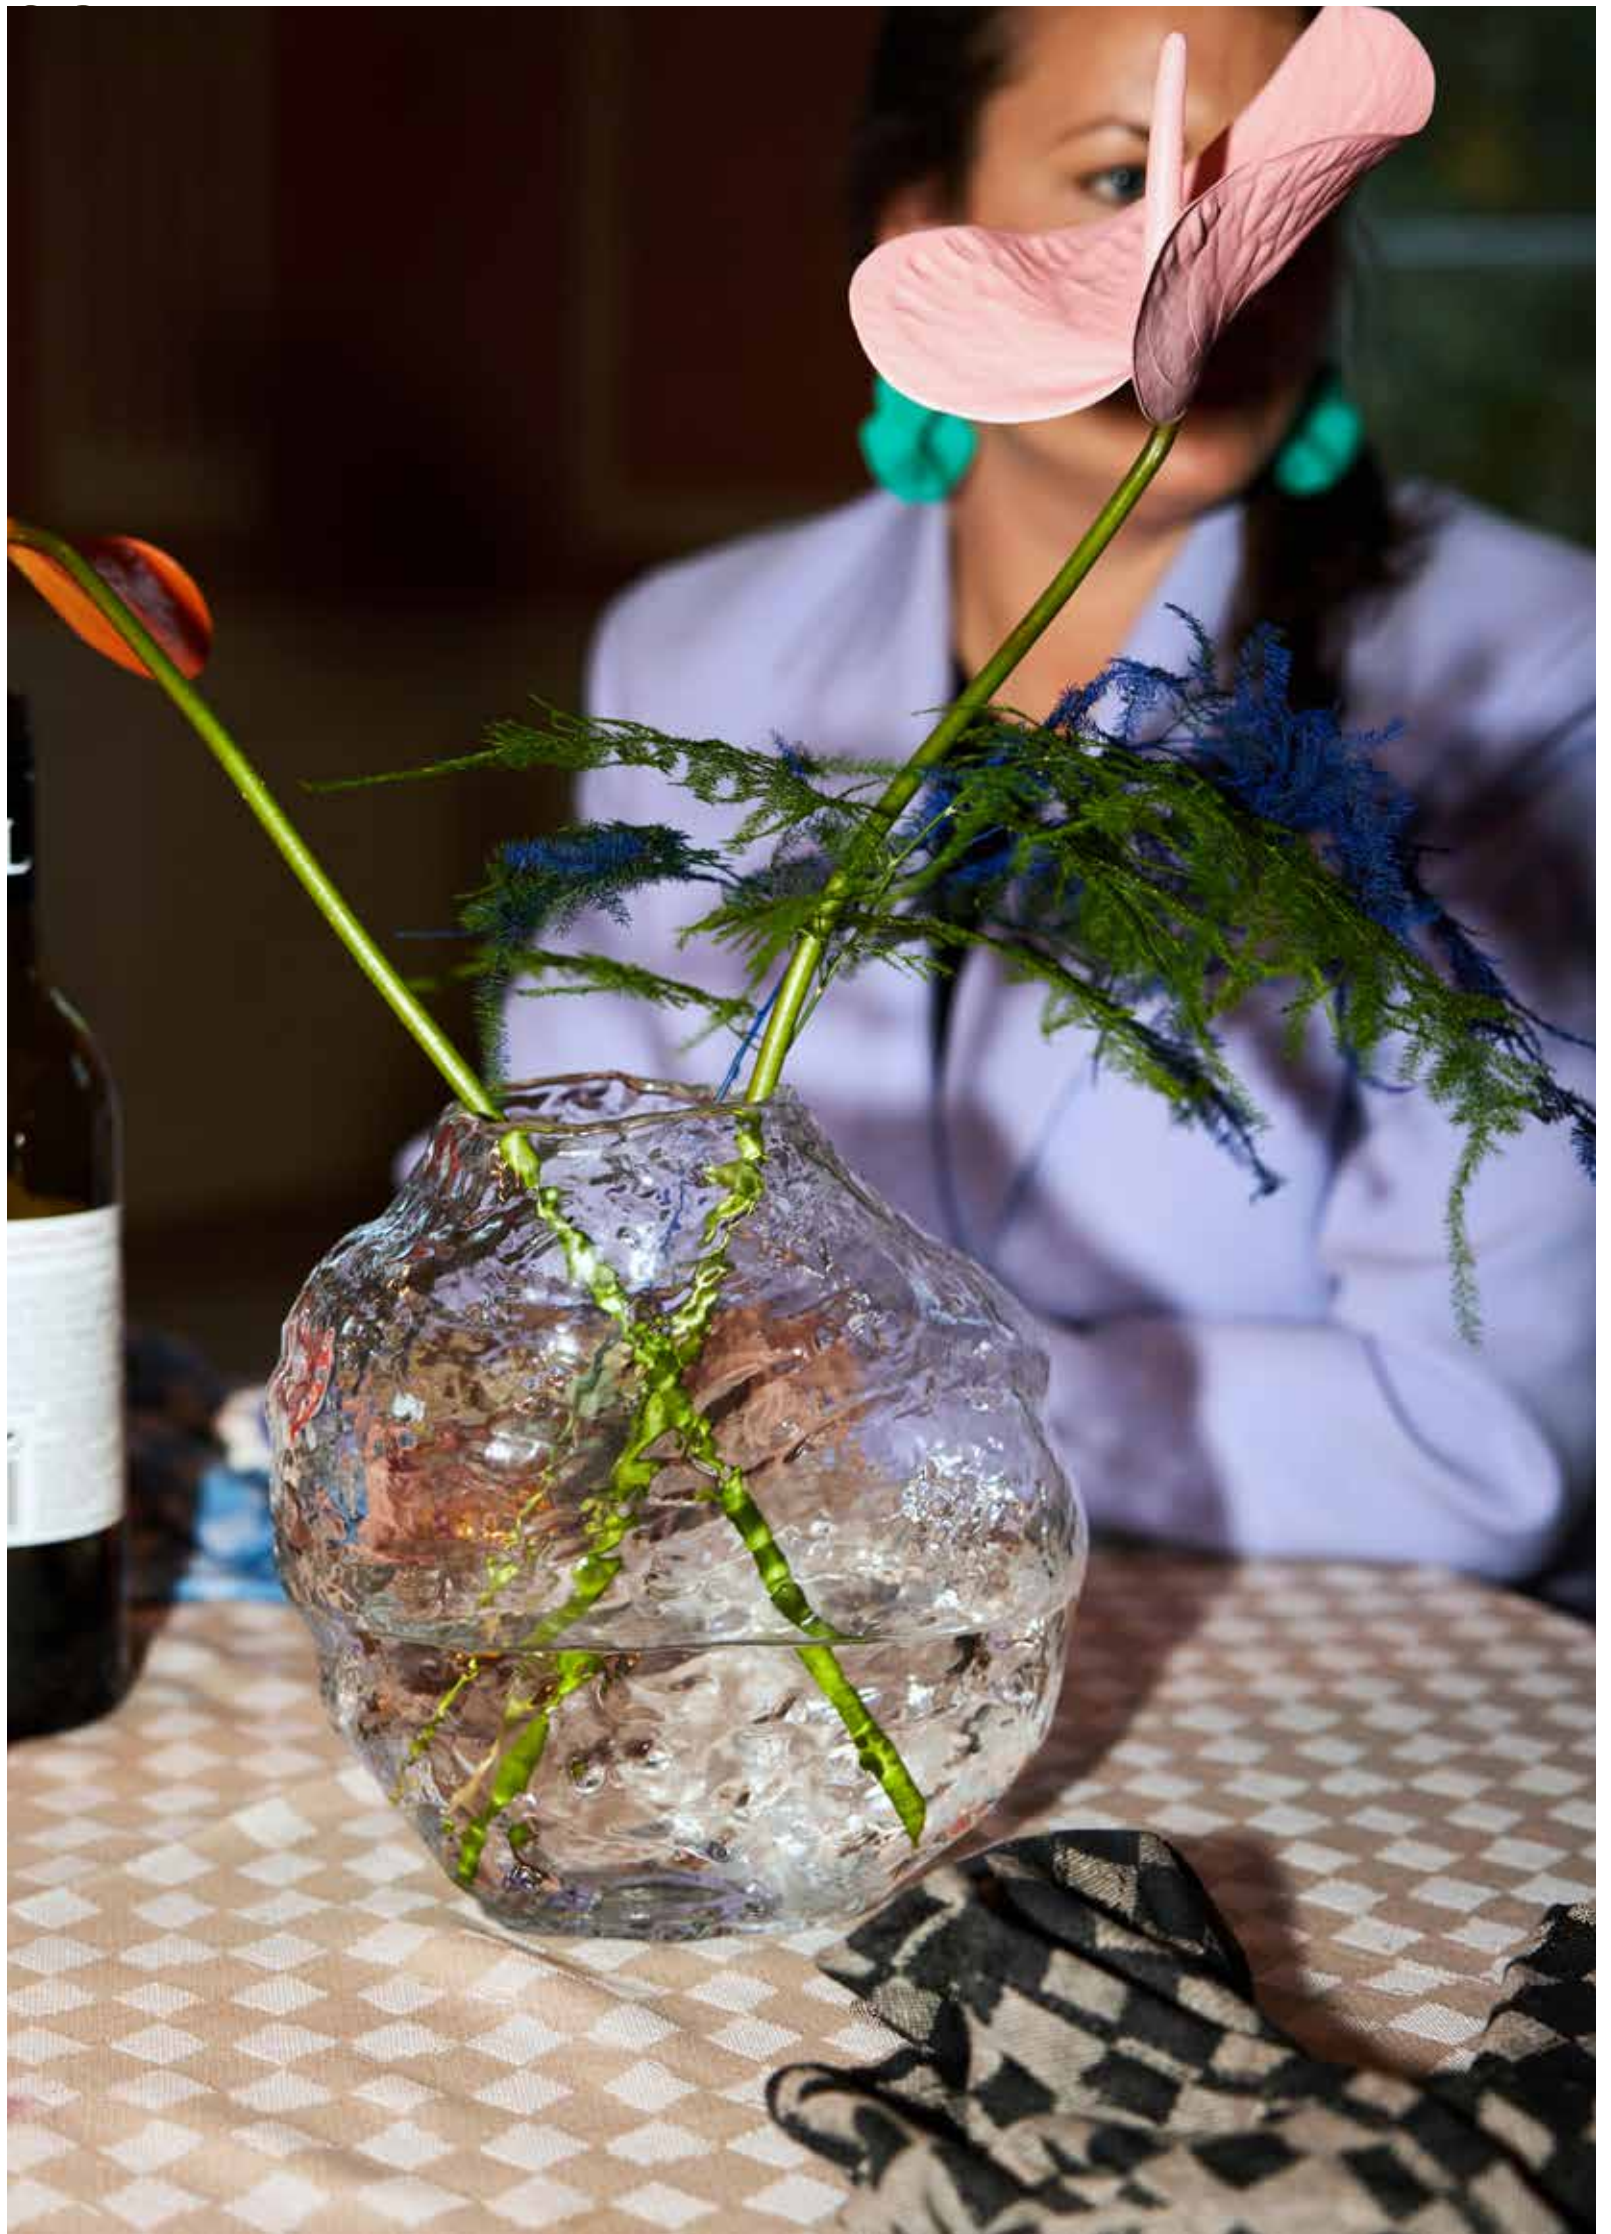

Vase Tiggy invites you into the wonderful greenery that gives us energy, desire and beauty. The shape reminds us of large overhanging leaves swaying in the wind with soft wavy movements. A discreet stripe is noticeable in the glass, it grows upwards and represents strength and willpower. Use the vase with colourful flowers or as a decorative piece in the bookshelf. Vase Tiggy is handmade and handblown which makes every piece unique.

Babbly

Like a big soap bubble with a perfect round shape and a beautiful textured surface, Babbly shows the way when we decorate. Inspired by the unique and organic shape of the bubble, by the childlike mind it awakens and the fragility containing so much power. The naturalness and warmth comes from the babbling community.

Vase Crumple

Vase Crumple makes us think of a crumpled bag flirting with beautiful origami. Loved and cherished in white or power blue, where it becomes cocky, outgoing and self-confident. A work of art which catches the eye – with or without flowers.

Wall decoration

"Magic mirror on the wall ..." When it comes to wall decorations we're not just talking about mirrors, even if we do have some magical ones. We would also like to present some other fabulous creativity involving wall hooks in the shapes of a tiger, monkey, giraffe or rabbit. Wooden wall hooks, shells, glass vases and posters are other kinds of imaginative creations opening up for: "... which is the fairest one of all?"

Textiles

Cushions are always highly topical. Especially if they are made of soft velvet and have Pathi's stylish stripes. In other words, it doesn't matter where you place them. On the couch, bed, floor. This creates coziness, looks great and we cannot get enough of them. Pathi is available in two sizes and three colour combinations.

Never grow up, it's a trap

Children are looking at things from a slightly different angle. So are we when it comes to our Mini Byon Collection, stretching from newborn to school age. Cosy clouds, rabbit lamps, ceramic balloons, pretty table sets and fairytale collections are some of our fantasies come true. Materials are important as are the colours standing out in their own personal way. Design is essential of course. Family games can easily be left in the living room and the snug and varying textiles always fit in. Just as childlike awareness and sense of humour, the way we see it, kids are always growing a little closer to the sun ...
