# Sagaform

## – A Swedish Original since 1996

Now we meet the light again. And each other. Because in this season's collections "moments to share" continue to bloom and create familiar Sagaform energy. Now with even more focus on freedom and spontaneity. We want to make it easy for you to see each other. Is it outdoors, indoors, with family, friends or perhaps you just want to enjoy your own company for a while? No matter how, you should always find the feeling together with our carefully selected new additions, stylish Swedish Originals and the attractive Scandinavian design. Welcome to the best fresh start of the year!

We arrange for parties on cliffs, on soft moss woodland tussocks, in outdoor rooms, on the boat or the balcony. Well, basically everywhere. We mingle with nature and enjoy its colours. Especially the beige, blue, brown, green and black nuances. We top up with warm lemon-yellow and soft apricot and let sustainable materials invite us to a picnic, dry the sea salt from our bodies, frame the flowers and make room for personal ideas and appealing inspiration. All in combination with timeless Sagaform details, a modern touch and a joy at the sun actually shining even if it's hidden behind dreamy clouds.

Ditte is the collection which likes to show off a bit extra with stylish summery motivation where vegetables, fruit and cold cuts are high on the menu. A fresh taste of lemon lifts the salad and the classic Nature series has got new friends. Ella Hamam's lovely organic cotton is now available also in a delightful yellow colour which together with the other timeless tones lets the summer wind mix and match between tablecloths, towels and napkins. Our pot series in terracotta feels classic and pleasant. A discreet emblem and the characteristic Saga stripe make the pot a much appreciated gift to give away and to receive.

With all of the above and much more we look forward to a happy spring and summer together with you!

# Give away a Swedish Original

We at Sagaform care about relationships. That is why we always regard our design as a great gift to someone we love but also for ourselves. The gift should be easy to give away with the purpose to raise many smiles on the receivers' faces.

Classic Scandinavian design in combination with carefully chosen details radiating stylish simplicity characterizes what we call Swedish Originals. Functional quality products caring about the familiar and which are created to be used and appreciated in many homes by many families for a long time to come. All of them packaged in a way which is appreciated and received just as they are.

# Studio Sagaform

In our studio ideas are brought to life and dreams are shaped. Here we sketch on possibilities, design future originals and bring forth products which always find their way home. We are really proud of our inhouse studio where we combine experience with engagement and loyalty to Swedish design.

## Designers

We also work with Sweden's leading designers, with whom we create familiar, well-made products and gifts with Scandinavian design, always ready to be given away. Together with names like Margot Barolo, Anton Björnsing and Pascal Charmolu along with many others we are proud of our heritage. Always with a focus on Swedish Originals.

# Sustainability for the future

It should be easy to make good choices, which is a key part of the development of our sustainability work. At Sagaform AB, we put great emphasis on sustainability in our processes and take responsibility for how our operations affect people and the environment. Of course, we hope that you are satisfied with your purchased products but also with us as a company.

As part of the New Wave Group, we pursue active sustainability work towards a vision of sustainable growth where business solutions are not only financially favorable but also sustainable from a social and environmental perspective. What makes the biggest difference is how we conduct our everyday business. That is why we are working to integrate sustainability issues into our core business. The work includes, for example, improved working conditions in production countries, progressive chemical work, and streamlining transport and logistics.

Our common main goal with the sustainability work is to create products with the longest life possible, to minimize the product's negative impact on people and the environment during its life cycle. In our work, we take into account all three dimensions of sustainability - social, environmental, and economic.

One of our strengths is that we have our own CSR staff in place in the production countries who work full time on these issues. The work includes, for example, improved working conditions, progressive chemical work, and streamlining transport and logistics. Through internal controls in combination with independent reviews, we make sure that our products are produced under good social conditions and do not contain any harmful chemicals. Do you want to know more? Please browse our Sustainability folder which you will find on our website under Sustainability. There is an interesting read about all our CSR work through the New Wave Group.

You can also read more about how we work with CSR and sustainability on the parent company's website [www.nwg.se](http://www.nwg.se). There we have gathered all information about important activities, collaborations, and goals for the future.

# Decoration

To us decoration should be classic, have a great function and always be appreciated to receive or give away. Here you will find products which both take up space and harmonize with the Scandinavian design.

# Viva vase

Like a newly emerged flower it unfolds its leaves. Vase Viva flirts with us in a seductive way – the organic shapes and the discreet power. Small vase Viva is perfect for cuttings or a small bouquet. Large vase Viva flourishes like a statuette with and without green leaves and flowers. A Swedish Original which has an obvious place in all homes. Viva is hand made and mouth-blown, sizes and shape may therefore vary.

# Anton Björnsing

Anton Björnsing has his background from the distinguished Carl Malmsten School in Stockholm where he studied furniture design focusing on wood. Before that he explored design and wooden handicraft at the Steneby School. The austere Scandinavian design language runs like a thread through Anton Björnsing's work. He works mostly with oak in combination with stoneware and glass, which gives the products a further dimension of exciting material contrasts.

Now the iconic tableware is back in the assortment but in a new and more modern way. Series Ditte with plates and bowls are perfect for finger food, tacos or tapas, when we set the table to have a long meal together. # Saga

Saga glass series is an important piece of our family of Swedish Originals. As the name reveals, we are extremely proud and sure of Saga being a part of our family for a long time forward. This is a classic glass series including wine glass, champagne glass, drinking glass and a carafe, all of which will take their special place in the kitchen cabinet. With its characteristic striped foot, on all of the parts, it stands out as well as blends in. Saga is perfect for the morning juice or the pancake milk, but it also has the power and strength to highlight any party dinner table in an extra festive manner. Saga can easily be mixed with what you already have and is a perfect gift and a desirable series to collect. A Swedish Original quite simply.

# Coffee & More

Coffee & More is produced by Sagaform in collaboration with designer Margot Barolo. The series design flirts with the direct, playful and straight language of the 70's. The series is available in various parts, patterns and colours and is at its best when everything is mixed. But it should not be underestimated when used individually. This series has several personalities which we love and appreciate. Which one is your favourite?

# Margot Barolo

Designer Margot Barolo was educated at Beckmans and also has a master's degree in ceramics from Konstfack. She has for a long time successfully worked with the Swedish art industry and during recent years also started challenging the picture of the production around this. Margot Barolo's unique design language and her love of ceramics shows in Coffee & More, the dinner service designed for Sagaform. Included in the series are stackable bowls, coffee cups, latte mugs and plates with inspiration from the 70's and its passion for ceramics with straight lines broken off by a multitude of patterns and playfulness. Her design language is tied together in peaceful nuances, high-gloss glazing and ornamented throughout in relief.

# Ellen collection

At Sagaform traditions are something we care extra much about, but also about our products to make sure they last for a long time, preferably over generations. Our series Ellen, with cups and bowls works just as fine to use for the breakfast coffee, the Friday fika as it does for Christmas coziness. The mulled wine jug we also use for water without the heating stand, or why not for other warm beverages during cool spring evenings. Ellen is an obvious Swedish Original in our assortment – today, tomorrow and for all traditions and moments to be shared in the future.

# Hamam

Ella Hamam is a series including napkins, towels, tablecloths and bags made of thinly woven and organic cotton embellished with Sagaform's classic and characteristic stripes in various patterns. Ella is available in four sizes and four different colours. The colours are taken from nature and the striped patterns vary with the colour. The lovely material and the different stripes make this collection as perfect as an interior detail as on the beach. We like to use Ella after a swim but also as a tablecloth, picnic blanket or as an interior detail thrown on the edge of a bed. The towels have fringed ends.

# Doris

Doris is an enamel series including a mug, bowl and plate. Accessories perfect to use during for example the picnic and the forest outing in front of the campfire. Or why not in the boat? Very durable products that will resist heat whether it is over a campfire, in the oven or on a stove. Doris can also be used by children. The series has a lovely forest green colour and a beige colour with a discrete "splash" pattern.
